1.0 HISTORICAL DOCUMENTATION OF MILL

1.1 HISTORICAL SUMMARY OF MERCHANTS MILL

The Central Quartz Mill was built in 1860 by I.S. Parks (SAIA TSC 1993:75). The mill possessed 10 stamps and could process 7 tons of ore per day (SAIA TSC 1993:75). In 1866, the State Mineralogist's Report indicated 13 stamps and a daily capacity of 13 tons of ore (SAIA TSC 1993:75). There is no indication of when the mill ceased operations, or the fate of the mill.

The following tables contain the full title history of the Central Quartz Mill (SAIA TSC 1993:78-80).

DATE	DEED	GRANTOR	GRANTEE	PROPERTY & COMMENTS	DATE RECORDED	COUNTY BOOK	COUNTY PAGE	DOCUMENT NUMBER

2.0 IDENTIFICATION OF MILL SITE LOCATIONS

2.1 INFORMATION REPORT

Appendix A is an information report generated from the NDEP Mill Site Inventory Database. This inventory is used to record survey data and historical research.

2.2 IMACS FORM

The Intermountain Antiquities Computer System (IMACS) Form is utilized by archaeologists as a guide for preliminary identification of a historic sites and features. The IMACS form is not intended to be complete, or to exhaust the subject of historic artifact discovery. The level of analysis may not adequately encompass the nature and complexity of the site. Estimates of numbers of various artifact types may be more appropriate for large sites rather than detailed descriptions which are more appropriate to small sites. The specific artifact classes represented here are the most common found on historic sites and are generally the most diagnostic. Evaluations of any site are dependent on surface features and artifacts, as well as complimentary historical documentation.

The IMACS form is a stand-alone document, attached as Appendix B with applicable attachments.

3.0 FIELD PHOTOGRAPHS

Survey Summary

Central Quartz Mill Site

Survey Date:	3/22/2012
Surveyors:	Steven Holm, Aaron Sonerholm, Ashlee Younie
Is Survey Complete:	Yes
Reason if Not Surveyed:	
Historic Basis:	Historical research and survey.
Mill Remains Visible Comment:	There are no visible remains of the actual mill site structure or foundation.
Distance From Mill To Nearest Residential Dwelling:	501' - 1000'
Is Site Accessible:	Yes
Site Accessibility Description:	Paved roads in Virginia City, Nevada
Are There Surface Remains:	No
Evidence of Recreational Use:	Yes
Amount of Recreational Use:	Heavy
Use Description:	City recreation.
Is Mill Deemed Historic:	No
Other Comments:	Site is under a road and the Silverland Hotel, Virginia City, NV.

Results of Previous Inventories:**Recorded and Unrecorded Sites:****Expectation:** Central Quartz Mill Site**Inventory Date(s):** 3/22/2012**Inventory Type:** Modified Class III Survey**Findings:** No mill resources were encountered during the inventory.

The Central Mill site is located in eastern Virginia City, just before 6 Mile Canyon and is considered ineligible for the National Historic Register, and for inclusion in the Comstock Historic District, as its integrity has been severely compromised. There is nothing left on this site, either structural or artifactual, of the mill. The previous location of the mill is now under a road and a hotel.

The historic background is insufficient to indicate if the mill is potentially eligible under Criterion A; it was constructed in 1860 and was a small mill for the early Comstock. Additionally, research did not uncover any

Appendix E

UNITED STATES DEPARTMENT OF THE INTERIOR BUREAU OF LAND MANAGEMENT

CULTURAL RESOURCES INVENTORY NEGATIVE REPORT

indication that the mill was associated with significant persons, and we recommend it is ineligible under Criterion B. We also recommend it is ineligible under Criterion C as it does not embody the distinctive characteristics of a type, period, method of construction, or that represent the work of a master, or that possesses high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction. All integrity at the mill site has been lost as the area has been altered significantly by urban development. This means that all surface and subsurface archaeological remains have been highly compromised, displaced out of context, or destroyed. The active use of the landscape suggests poor preservation of subsurface remains, and it is unlikely that eligibility under Criteria D would be supported, although no subsurface testing was conducted as it is outside testing is outside the scope of this project.

2.10 Central Company's Mill

The Central Company's Mill was also referred to as the Central Quartz Mill. Hochholzer's 1865 Map places the Central Quartz Mill on Mill Street between E and F streets in Virginia City (Map 8) (Map 3).

The title history of the Central Quartz Mill begins on July 27, 1860 when Gustav Epner conveyed a parcel of land "near the mouth of the Joint Tunnel of the Ophir, Central, California and other mining companies..." in Virginia City to the Central Silver Mining Company (L-1).

According to Kelly's 1862 Directory, the Central Mill was built by I. S. Parke "in the latter part" of 1860 and it began operating in January 1861. It had 10 stamps and crushed 7 tons of rock per day (A-4:A011019).

On January 3, 1864, Central Silver Mining Company conveyed to William M. Lent the same land and the Central Mill which stood on the property (L-2).

The next recorded document, dated August 10, 1864, conveys the property, which includes the Central Mill, from William H. Godfrey to the Central Silver Mining Company (L-3). The deed does not describe Godfrey's source of title to the property. There is no record of any conveyance of the property to him. Kelly's 1862 Directory names W. H. Godfrey as superintendent of Central Silver Mine. Under the doctrine of after-acquired title, any interest conveyed by Godfrey might be deemed to have vested in Lent instead, because Central Silver had previously conveyed its interest to Lent. The doctrine of after-acquired title is intended to prevent grantors from retaining interests that they previously conveyed, even when they did not own the interest at the time of their conveyance. In any event, no further conveyance by Central Silver Mining Company appears of record.

William M. Lent conveyed a two-thirds interest in the Central Mill and millsite property to John B. Dickinson on December 8, 1865 (L-4). One week later, on December 15, 1865, Lent conveyed his remaining one-third interest in the mill and related property to William Sharon (L-5).

The 1866 State Mineralogist's Report described the Central Company's Mill as having 13 stamps and a crushing capacity of 12 tons per day (A-7:A008519).

There is no record of any conveyance of the property by either Dickinson or Sharon. However, in a series of three deeds in 1876, 1955 and 1963, the Virginia & Truckee Railroad Company purported to convey different portions of the original parcel (L-6, L-8, L-9, respectively). These are described below as the Consolidated California and Virginia parcel, the Riley parcel, the International Hotel parcel, and the Marshall parcel. It is possible that deeds by Dickinson or Sharon never were executed or recorded, or that the railway acquired title by adverse possession. Adverse possession enables a land occupant to obtain ownership by occupying the land for a specified period of time, under conditions hostile to the true owner.

Consolidated California and Virginia parcel. On January 3, 1876, Virginia & Truckee Railroad Company granted the south 40 feet of Lot 1, Block 69, in Range F, to Pacific Mill and Mining Company (L-6). Pacific Mill and Mining Company conveyed the same property to Consolidated California and Virginia Mining Company on October 11, 1887 (L-7).

Riley parcel. On September 6, 1955, the Virginia & Truckee Railway [sic] Company conveyed Lots 1 through 12, Block 67, Range D, to John M. and Mildred Murry as joint tenants with right of survivorship (L-8). On October 23, 1963, alone, Mildred Murry conveyed the parcel described above along with other lands to John and Mildred Giuffra, as joint tenants (L-10). The deed does not describe Mildred Murry's marital status at the time of the conveyance, or whether her original joint tenant, John M. Murry was alive or deceased. There is no record of any conveyance by John M. Murry. On March 10, 1966, the Giuffras conveyed their interest to Historic Reproductions, Inc. (L-14). About two months later, on May 24, 1966, Historic Reproductions conveyed the property back to the Giuffras (L-16). John and Mildred Giuffra conveyed the property to Vestee and Tenable Construction Company, Inc. on April 14, 1969 (L-18). Vestee and Tenable Construction conveyed the parcel to Allene Riley on September 28, 1971 (L-19).

On July 10, 1972, Davey L. Riley, F. Douglas Riley, Harry Riley and Patricia A. Cassidy, the children of Allene Riley and her deceased husband Henry Riley, quitclaimed to Allene Riley any community property interest that Henry Riley might have had in the parcel (L-20). The deed of the Riley children specifically refers to the deed by which Allene Riley acquired her interest, but erroneously describes the property as Lots 1 through 12, Block 57, instead of Block 67 (L-19, L-20). This error appears to have been continued on Allene Riley's deed of Lots 1 through 12, "Block 57" to David Pierce Powell, trustee, which is dated the same day as the Riley children's deed (L-21). There is no specific recorded conveyance of Lots 1 through 12, Block 67 by either Allene Riley or David Pierce Powell, trustee. Depending on whether Allene Riley's deed to Powell contains a typographical error, either Allene Riley or Powell is the record owner of this parcel, listed by the current tax assessor as parcel no. 01-096-02. The deed from Riley to Powell was subject to a Deed of Trust, referred to in the conveyance (L-21).

Marshall parcel. On October 23, 1963, Virginia & Truckee Railway Company conveyed to Robert C. and Genie Miller the property that originally contained the actual millsite (Lot 1, Block 68), as well as the remaining portion of the entire original parcel (Lot 1, Block 69 except for the south 40 feet) (L-9), referred to below as the International Hotel parcel. The Millers conveyed the Marshall parcel (Lot 1, Block 68) to Frederick and Jo Nina Kramer, as joint tenants on July 23, 1964 (L-11). On September 15, 1964, the Kramers added their daughter to the title by conveying the property to themselves and to Shirl Haney as joint tenants (L-12). Frederick Kramer and Shirl Haney later conveyed their interests in the Marshall parcel to Jo Nina Kramer on March 10, 1966 (L-15). Jo Nina Kramer then conveyed the property back to Frederick Kramer and herself as joint tenants on September 18, 1968 (L-17). Frederick and Jo Nina Kramer obtained a mortgage on the Marshall parcel from First Western Savings Association on September 14, 1977 (L-22). Frederick and Jo Nina Kramer conveyed their interest to Lynn S. and Gwynn V. Leong, as joint tenants on February 22, 1978 (L-23). On May 8, 1991, Gwynn Leong recorded an affidavit of the death of her joint tenant,

Lynn Leong (L-28). After her husband's death, Gwynn Leong conveyed the Marshall parcel to Hugh Roy Marshall, the current owner, on May 28, 1991 (L-29). Cynthia Marshall relinquished her community property interest to her husband; Hugh Roy Marshall (L-30). Hugh Roy Marshall purchased the property subject to a Deed of Trust in favor of Gwynn Leong (L-31).

International Hotel parcel. As described above, the International Hotel parcel (Lot 1, Block 69 in Range F, except for the south 40 feet) was conveyed to Robert and Genie Miller by Virginia & Truckee Railway on October 23, 1963 (L-9). The Millers then conveyed the property to Frederick and Jo Nina Kramer and to Shirl Haney, as joint tenants, on January 7, 1965 (L-13). Frederick and Jo Nina Kramer conveyed the property to Dan and Judith Davidson on August 29, 1978 (L-24). There is no record of any conveyance of this property by Shirl Haney. Nor does the deed of her parents state whether she was alive or deceased at the time of her parents' conveyance. Storey County also conveyed to Dan and Judith Davidson on May 2, 1986 any interest the county might have obtained for failure to pay property taxes, after taxes were paid (L-25). In a partition action, the court awarded the property to Judith Elaine Davidson and held that Daniel Lee Davidson had no further rights in the property (L-26, L-27). Judith Davidson conveyed the property to International Hotel and Land Company, the current owner, on December 6, 1991 (L-32). International Hotel purchased the property through a mortgage from Judith Davidson (L-33). The property is currently listed by the tax assessor as parcel no. 01-155-03.

The Central millsite property was later subdivided into Lots 1 through 12, Block 67; Lot 1, Block 68; and Lot 1, Block 69; which currently bear tax assessor parcel numbers 01-096-02, 01-152-02, and 01-155-03, respectively.

TERRITORIAL ENTERPRISE

4/18/1867.

OPHIR AND MEXICAN.—The Ophir and Mexican shaft is down 635 feet and at this depth drifts are being run east and north in search of the lead. We hope that they may one of these days out into a deposit such as in former times we have seen in the mine. We have faith in both these mines and believe that we shall see whole trains of teams loading at their dumps, as of yore, before this summer passes over.

PROGRESSING.—The new addition to the Hoosier State Mill, which is being built by the proprietors, is progressing satisfactorily, all things considered. The frame work is up, and it will not be long before the necessary machinery will be put in place.

The Mariposa Mill is crushing ore from the Savage mine.

Janyene lives in the government community
 in the town of Richmond, where she has
 been. One week has been called and she
 have been several days there now long.
 One unknown woman passed a person
 of the same name of his place, and having
 the temporary absence of the person of
 the town also, and a house on the top.
 When she was returned to the town and
 and would be changing the house down. The
 woman said to the woman that she was
 who also thought and willing to be
 possible, by following the building of the
 school.

Still a threat to us via Mexico and
propaganda are spreading to Chinese land. The
Silver December are propagating its own fact-
out into the wilderness. The El Dorado
with them is Paducah. [unclear] [unclear]

to stand by this [unclear] world. [unclear] and
everything going to stand up a nation's pro-
line. The [unclear] taking the [unclear] [unclear]
better date found growing things up a hand,
the palm species

Orville (Hades).--The Officer Greale is out in a passenger automobile. Twenty of the fifty men that have been employed on the road for the past month were yesterday discharged. The force remaining will be used in filling up ruts and smoothing down the road as it comes up. In a very few days the road will be all the better again.

DEAD.—John Thomas, a Jesuita Catholic man sent to the County Hospital two weeks since by the City Health Commission, died last Saturday.

OBLER.

New York.
Black Crook.—The Crook still keeps on the even tenor of its way with a large troupe of melodrama actors and actresses, introducing new features almost nightly. The place is devoted to fun and all is free and easy throughout. A duo bill will be presented this evening.
New Boilers.—The Yellow Jacket Company have just received and will at once set up two new boilers, each 16 feet in length by 54 inches in diameter. Each boiler contains 50 three-inch tubes. The boilers were manufactured at the Pioneer Boiler Works.
Tax omnibus line plying between this city and Gold Hill is being well patronized this summer. Our people all seem to have made up their minds that it is much cheaper to pay two bits for a ride than to walk during this hot weather.
Not So.—There was a report on the streets last evening that a miner in the Chollar had been caved on and fatally injured. Upon tracing the matter up we found that a workman in the mine had sprained himself, so give no smashing of bones!
Overhauling.—The Kentucky Company is engaged in overhauling their hoisting works. They are putting in new reels, repairing their shafts, and pitting everything in order for a long siege of heavy work.
Low Fare.—The old line of Dayton stages leaving that town in the morning charges but four bits to this city and intermediate points. Nobody can complain of this as extortionate.
Our markets are well supplied with apples, peaches, plums, pears, grapes and every other kind of fruit now in season—watermelons and muskmelons are also plenty.
For Sunday Accommodation.—After this date the stage office of Wells, Fargo & Co. will be open on Sundays from 2 to 4 o'clock P. M., for the accommodation of those wishing to secure seats in the stages to California.
The Corro Oordo mines are still well spoken of. Partion who left this city a few weeks since to look after interests in various leads in that section expresses themselves as being perfectly satisfied with their mines.
Faster teams, loaded with merchandise for our business houses, continue to throng our streets. Our merchants appear to be determined to take time by the forelock this season.
Telegraphing.—There are messages at the Telegraph office for the following persons: Mikael Kelly and C. Morales or Lottio Morales.
New Appointment.—Mr. A. Baker has been appointed route agent for the western division of the Overland Stage Company's line.
Large quantities of wood are now coming into the city from Washoe. Ten cords to one team is a load by no means unusual.
Our mills are now at work day and night, and we hear no complaint of a scarcity of flour.
Good Sport.—There is said to be very good shooting just now about Pearline—the game being grouse and sage hens.

Notice to Invalids.
ALL PERSONS WHO HAVE NO HOME NOR
a place where they can receive the attention
necessary to their comfort, when ill, can find at
the County Hospital comfortable private rooms,
where they will be attended upon by kind and
experienced nurses, and be supplied with every
thing necessary to their comfort.
THE ROOMS are entirely separated from the
ward occupied by the indigent sick.
The Hospital is under the care of Dr. BRON-
SON, who can be found at his office, corner of C
and Taylor streets, over Fowler's store, every
day between the hours of 12 M and 3 P M. Ar-
rangements can also be made with Mr. Cronch,
Superintendent of the Hospital, who can always
be found at the Hospital Buildings.

NOTICE IN BANKRUPTCY.—THIS
is to give notice that, on the fourth day of Au-
gust, 1897, a warrant in bankruptcy was issued
against the estate of JAMES H. FORT, of Washoe
City, in said district, who has been adjudged a bankrupt,
on his own petition; that the payment of any debts and
delivery of any property belonging to such bankrupt to
him, or for his use, and the transfer of any property by
him, are forbidden by law; that a meeting of the credi-
tors of the said bankrupt, to prove their debts and to
choose one or more assignees of his estate, will be held
at a Court of Bankruptcy, to be holden at the office of
Mr. J. SHERLY, a Register in Bankruptcy of said Court,
No. 35 South C Street, in Virginia City, Store County,
Nevada, before said Register, on the fourteenth day of
September, A. D. 1897, at 11 o'clock A.
E. IRWIN,
U. S. Marshal and Messenger in Bankruptcy.

HAPPINESS OR MISERY?
THAT IS THE QUESTION.
THE PROPRIETORS OF THE "PACIFIC MU-
seum of Anatomy and Science" have deter-
mined, regardless of expense, TO GIVE FREE (for
the benefit of suffering humanity) four of their
most interesting and instructive LECTURES ON
ANATOMY, and its disqualifications: Nervous
Debility, Premature Decline of Manhood, Indi-
gestion, Weakness, Depression, Loss of Energy
and Vital Power—the Great Social Evil, and those
maladies that result from youthful follies, ex-
cesses of intemperance, or ignorance of Physiology
and Nature's Laws.
These invaluable Lectures have been the means
of enlightening and saving thousands, and will
be forwarded FREE on receipt of Twenty-five
Cents in postage stamps, on addressing "Socie-
tary Pacific Museum of Anatomy and Science,
Montgomery street, San Francisco."

* Soon will be 1,200 per month.

† 750 tons per month; October 15, 1866.
‡ Now 2,800 tons.

NOTES ON MILLS.

STOREY COUNTY.

- Bowers* (1)—Paid this for 5 months only; has been idle four months; now running, with own water; (2) 5-foot pans.
- Central* (1)—To Virginia and Gold Hill Water Companies; also, pays \$— to Ophir Company.
- (2)—Hepburn and Peterson's, working 500 tons per month wet; four furnaces and six barrels, working 170 tons dry.
- Croton Point* (1)—Just dismantled; engine used to drain mine.
- Cornet* (1)—Been idle for seven months; just started again.
- Douglas* (1)—10-inch cylinder, 30-inch stroke, 26 plain pans.
- Empire No. 1* (1)—Increasing stamps to 21; capacity to be 40 tons per day; to employ 16 men, 27 Wakelee pans.
- Empire No. 2* (1)—Concentrators and two stamps for breaking.
- Empire State* (1)—4-foot pans.
- Gold Hill* (1)—6-foot tube.
- Hoosier State* (1)—With steam chambers.
- Land's* (B)—Throughout the table designates Blake's breakers.
- Mariposa* (1)—Also one prospecting stamp; (2) large.
- Marysville* (1)—30 5-foot plain pans.
- Pacific* (1)—Large.
- Relatuna* (1)—Stamps being increased to 16; capacity to 26 tons per day; men to 11; wood to five cords; adding eight improved Wheeler pans, four settlers and one agitator.
- Pulte* (1)—8-foot settlers.
- Rhode Island* (1)—18-inch cylinder; (2) 7-foot pans.
- Rigby's* (1)—One extra pan and settler for tailings and one barrel.
- Rogers's* (1)—Not running for four months.
- Saphire* (1)—Wheeler.
- Simcoe* (1)—Improved.
- Stenenson* (1)—8½-inch cylinder; (2) Howland's rotary battery; can crush seven tons and amalgamate five tons per day; (3) small.
- Succor* (1)—24 Wakelee flat-bottomed pans.
- Summit* (1)—Burnt and rebuilt in 1863; (2) small pan and settler.

LYON COUNTY.

- Birdsall* (1)—Mill, \$110,000; ditch, \$40,000; total, \$150,000.
- Carpenter* (2)—Large-sized Wheeler.
- Dayton No. 1* (1)—Four of these for prospecting; (2) 8-foot settlers; (3) Knox.
- Dayton No. 2* (1)—Two roasting furnaces.
- Eastern Slope* (1)—Large.
- Eureka* (1)—Break 80 tons per day.
- G. C. Reduction Works* (1)—5-foot pans.
- Imperial Rock Pt.* (1)—7-foot tubs and settlers; (2) breaker, large size.
- Phanix No. 1* (1)—Eight tubs and Wheeler pans.
- Pioneer* (1)—15 tubs and Wheeler pans.
- Sacramento* (1)—12 7-foot iron pans.
- Swansea* (1)—6-foot tubs and one prospecting battery and pan.
- Trench* (1)—16 flat 7-foot pans, one excelsior and two Wheeler and Randall pans.
- Weston's (Steam)* (1)—Worked but about 1,000 tons of Comstock ore this year; hauling about \$3 per ton.
- Weston's (Water)* (1)—Six flat-bottomed pans; has run but little this year for want of water.

ORMSBY COUNTY.

- Merrimac* (1)—Also, one prospecting battery and pan; (2) large.
- Mexican* (1)—Four furnaces and 10 barrels.
- Iranian* (1)—Hanscom's.

WASHOE COUNTY.

- Manhattan* (1)—16 pans.
- Ophir* (1)—Working but 36 stamps—Freiberg process—nine furnaces.
- Reduction Works*—24 amalgamating barrels.
- Temelec* (1)—Large.
- Washoe Valley* (1)—Wheeler 12-foot breast; full capacity about 300 horse-power.
- Reduction Works*—40 stamps used for Freiberg process, and 20 for wet; eight furnaces and 20 barrels for dry process; four Wheeler and Randall's pans for wet; four more Varney pans to be introduced; (2) Blake's improved saw.

REPORT
OF
J. ROSS BROWNE
ON THE
MINERAL RESOURCES
OF THE
STATES AND TERRITORIES WEST OF THE ROCKY MOUNTAINS.

PUBLISHED BY H. H. BANCROFT & CO.,
SAN FRANCISCO, CALIFORNIA.
1868.

Chapter 4

VIRGINIA CITY'S MILLS

Most of the Comstock's ore reduction was done to the south of Virginia City in Gold Canyon and along the Carson River from Empire to below Dayton. Even though Virginia City was more of a mining than milling center, several very large mills, such as the California, Consolidated Virginia, and Nevada mills, were located in the area. Virginia City's mills are discussed from the north around the Cedar Hill area to the "Divide".

Cedar Hill Mill: Quartz mill which was situated at the mouth of Cedar Ravine in the early 1860s. It was reported to have cost about \$35,000 and to have had a 40 horsepower steam engine, 12 tubs and 8 Knox pans, and 12 stamps with a capacity of 16 tons per day (Collins, 1864-65, 45; Kelly, 1862, 111; 1863, 162).

Sacramento & Meredith Mill: Reduction mill, belonging to the Sacramento and Meredith Mine, located north of Virginia City near Cedar Hill. In the early 1870s it was reported to have 20 stamps and a capacity of 50 tons a day but was idle (Lord, 1883, pl. 3; SMR, 1871-72, 138).

Summit Mill: This mill was located at the north end of Virginia City. The 1866 *State Mineralogist's Report* described it as a steam mill using 6 cords of wood a day and having 20 stamps, 11 Wheeler pans, 1 Varney pan, and a crushing capacity of 35 tons a day. The *Territorial Enterprise* reported that the mill shut down in 1870 and was dismantled in 1872 (SMR, 1866, 149; TE, Sept 3, 3:1; 1870, Sept. 15, 3:2; 1872, June 18, 3:1).

Pony Mill: Reported in 1877 to be a four-stamp mill located in a ravine just south of the Odd Fellows Cemetery in Virginia City. Its main building measured 20 x 38 feet; it could crush six tons in 24 hours; and it was working ore from the Sierra Nevada ledge for gold only (TE, 1877, Oct. 11, 3:2).

Mexican Mill: Cyanide mill built in 1911 near the Union Shaft in Virginia City to treat ores from the Mexican and other nearby mines. It was described by Carl Stoddard as an "all-slime mill without table concentrators," which operated successfully for a number of years. It had ten 1,250-pound stamps and a capacity of 90-100 tons a day. Reinforced concrete engine mounts remain at the mill site (Comp, 1980; Sanborn Map Co., 1923, sh. 1; Stoddard, 1950, 23-24).

Central Co.'s Mill: Quartz mill erected in 1860 by the Central Silver Mining Co. It was situated on D, Mill, and E streets in Virginia City and included an office, assay room, storehouses, carpenter and blacksmith shops, and lodging for employees. The main building was reported to measure about 153 x 30 feet. In the early 1860s it processed the richest ores from the Central, Gould & Curry, and Savage mines. In the 1866 *State Mineralogist's Report* it was listed as being a steam mill using 8 cords of wood a day and having 13 stamps, 4 Hepburn pans, and a crushing capacity of 12 tons a day (Bancroft, 1862, map; GHN, 1865, Mar. 29, 3:1; Kelly, 1863, 157; SMR, 1866, 148).

O'Farrell Mill: Early day quartz mill located on Mill Street about 1/4 mile below Virginia City. It was earlier known as the Ogden & Wilson Mill for its original owners, Richard Ogden and J. Downs Wilson, who built the mill in 1860 for about \$40,000. Kelly's 1863 directory described it as having a main building measuring 40 x 80 feet, a 20 horsepower steam engine, 18 stamps, and a reduction capacity of 12 tons a day. The 1866 *State*

 } Dec. 1865 in the year one thousand eight hun-
 } dred and sixty five, between William M. Leret at present and

of the first part and William Sharr of the same place of the second part. Witnesseth that the said party of the first part for and in consideration of the sum of One Thousand and dollars lawful money of the United States of America to him paid by the said party of the second part the receipt whereof is hereby acknowledged, hath granted, bargained, sold, aliened, conveyed and by these presents doth grant, bargain, sell, alien, convey unto the party of the second part his heirs and assigns forever, one undivided one third (1/3) part of and in all that piece or parcel of land lying situate and being in the City of Virginia, Spring County, State of Nevada, described as follows to wit: Commencing at the South East Corner of Bond and Mill Streets in said City of Virginia, and running thence Southerly along the east line of Bond Street two hundred and ten (210) feet, thence Easterly at right angles with said line of Bond Street one hundred (100) feet, thence Southerly and parallel with said line of Bond Street fifty eight (58) feet, thence Easterly at right angles One Hundred (100) feet to the line of Bond Street continued, thence Northerly along the line of Bond Street continued two hundred and sixty eight (268) feet to the South line of Mill Street, thence westerly along the line of Mill Street two hundred (200) feet more or less to the place of beginning being the lot and premises now occupied by the party known as the Central Mill. Also an undivided one third (1/3) interest of and in all the buildings and improvements known as the central quartz mill located upon said land. Also an undivided one third (1/3) interest of and in all the machinery thereof. Together with all and singular the tenements hereditaments and appurtenances thereto belonging or in anywise appertaining. I have and to hold the above described and mentioned interest in and to said premises with the appurtenances unto the said party of the second part his heirs and assigns forever. In Witness whereof the said party of the first part has hereunto set his hand and seal the day and year first above written.

Witness Lewis Lillie

Wm. M. Lent (22)

State of Nevada, County of Spring

On this 16th day of December A.D. One Thousand Eight Hundred and Sixty five before me Henry M. Morgan a Notary Public in and for said County, personally appeared Lewis Lillie known to me to be the person whose name is subscribed to the foregoing Instrument as a witness thereto, who being by me duly sworn, deposes and says, that he was present and saw Wm. M. Lent personally known to him to be the person described in and who executed the said Instrument, freely and voluntarily sign, seal and deliver the same, whereupon he the said deponent subscribed his name to said Instrument as a witness thereto. Witness my hand and official Seal, the date last above in this Certificate written.
